Medium

Affected User

Jamie Taylor

Domain

aklab.local

Issue:

Jamie Taylor is now back from vacation and requested the removal of the lockout from the account which his manager advised a week ago that she requested the account to be locked for one week, but it is still locked after 7 days.

Environment: DC01 (domain controller) and CLIENT01 (Windows client)

1. Issue Description

Jamie cannot access the her account even after one week has passed, check the account and unlock it so that she can access the resources and resume her work.

2. Environment

- User account: AKLAB\jamie.taylor
- Shared resource: \\DC01\CompanyShare\Employees

3. Investigation

- Verifying the user:

The user's account is disabled, so I couldn't verify or use authentication; hence, I verified the user by asking some security questions over the call, which the user answered correctly. Therefore, proceeding to fix the issue.

4. Root Cause

The user requested the account to be disabled a week ago following advice from her manager; that's why the account is disabled now.

5. Resolution

Let's enable the account:

Right-click on the user > Enable account

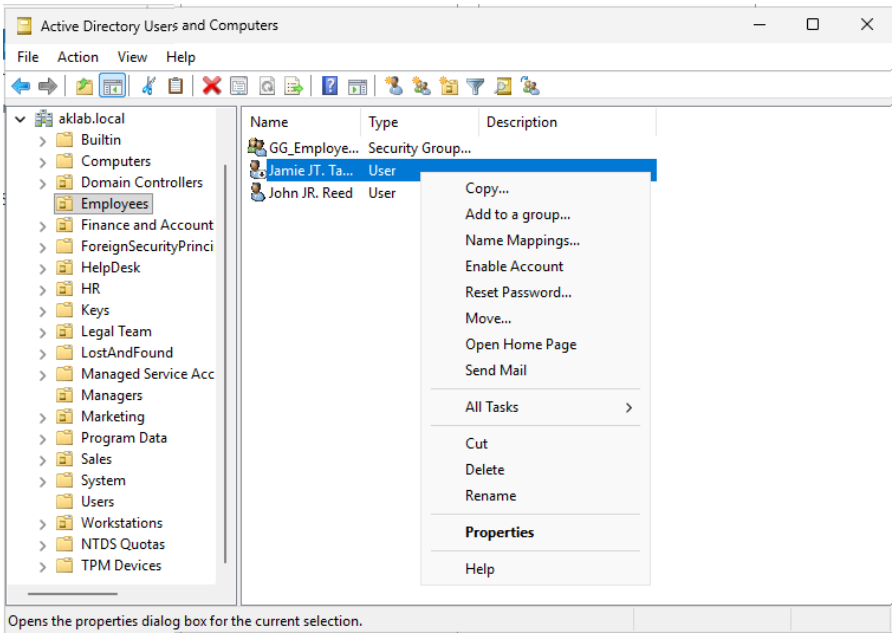

Figure 1: Settings to enable the account

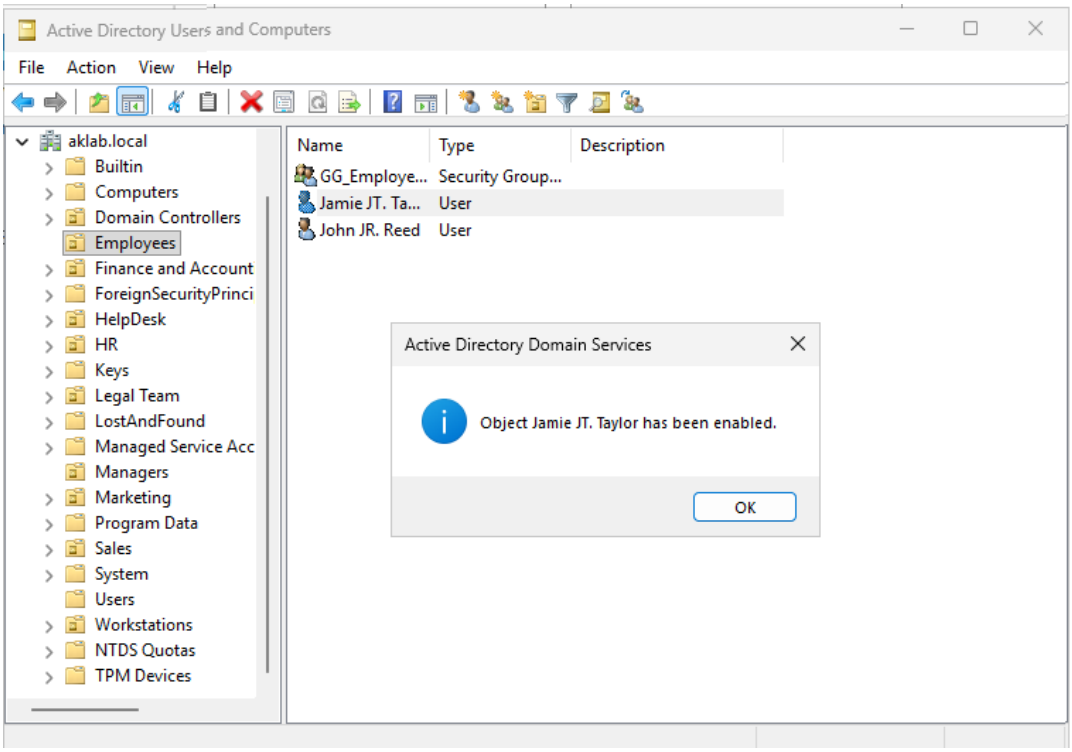

Figure 2: The message says that the account is enabled now

The account has been enabled now.

6. Validation

Let's verify if the account is working now by remotely connecting to Jamie Taylor's account:

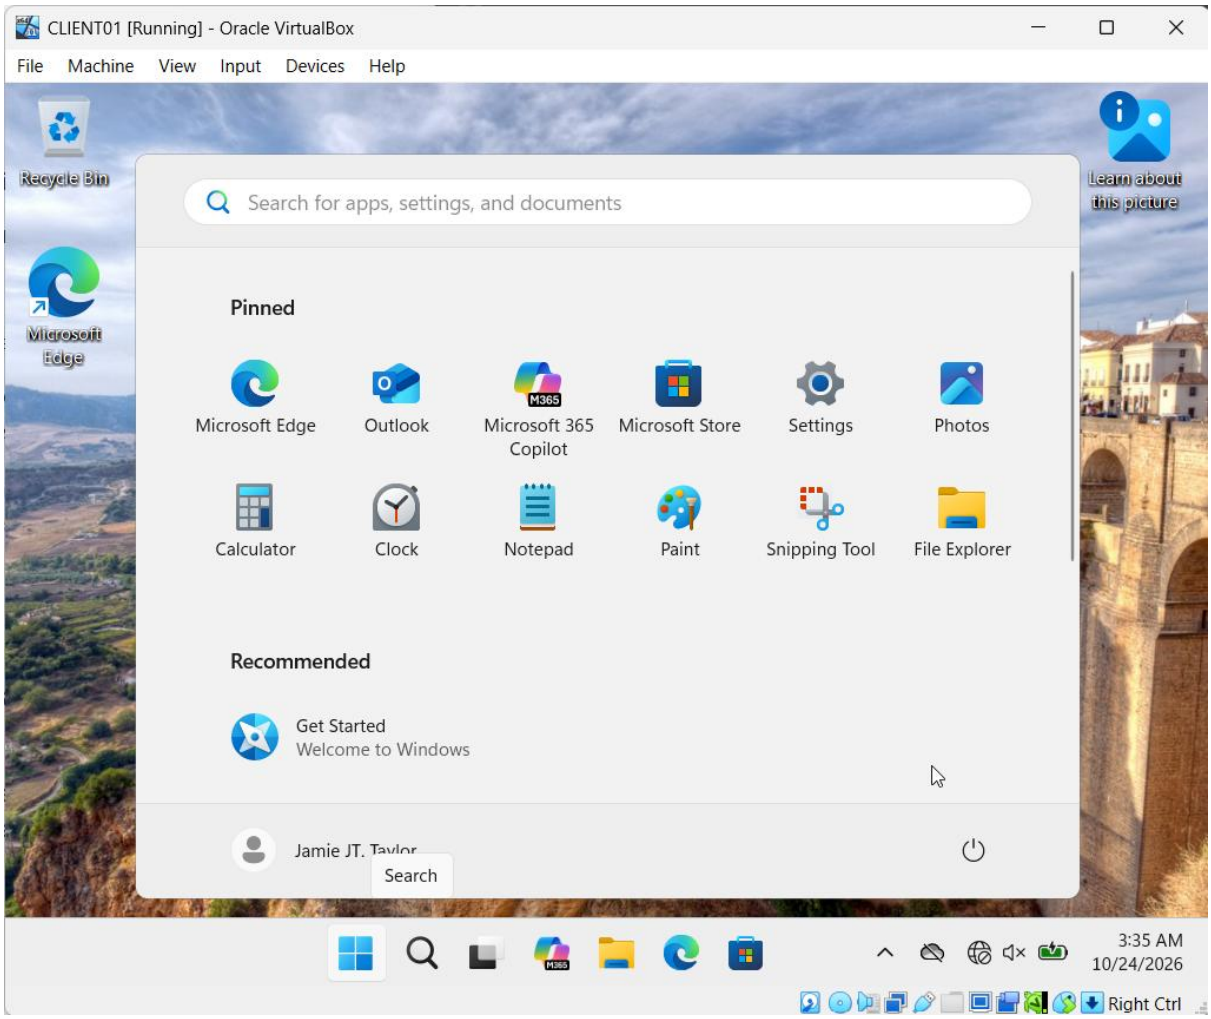

Figure 3: Jamie Taylor can successfully access her account

Ticket Resolved!
