Affected User

Marketing Team

Domain

aklab.local

Issue:

Our team is unable to access the Marketing folder under CompanyShare. Whenever we try to access it, it says permission denied. Kindly resolve the issue at your earliest as we need to gain access to the folder at the earliest.

Environment: DC01 (domain controller) and CLIENT01 (Windows client)

1. Issue Description

The employees in the Marketing team are not able to access the Marketing folder in the CompanyShare drive due to some restrictions in the permissions.

2. Environment

- User account: AKLAB\olivia.martin, AKLAB\ethan.clarke
- Shared resource: \\DC01\CompanyShare\Marketing

3. Investigation

Message displayed when the users try to access it:

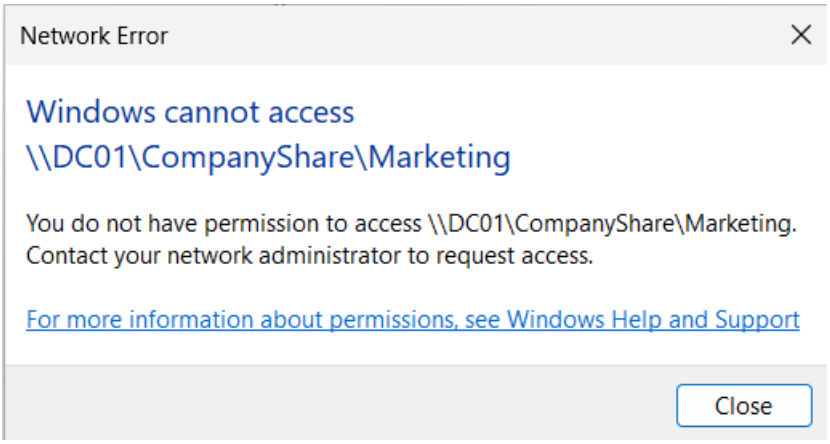

Figure 1: Permissions denied to access Marketing folder

4. Root Cause

The main issue could be the security settings of the Marketing folder or the permissions on the users accounts.

5. Resolution

Checking the permissions of the folder:

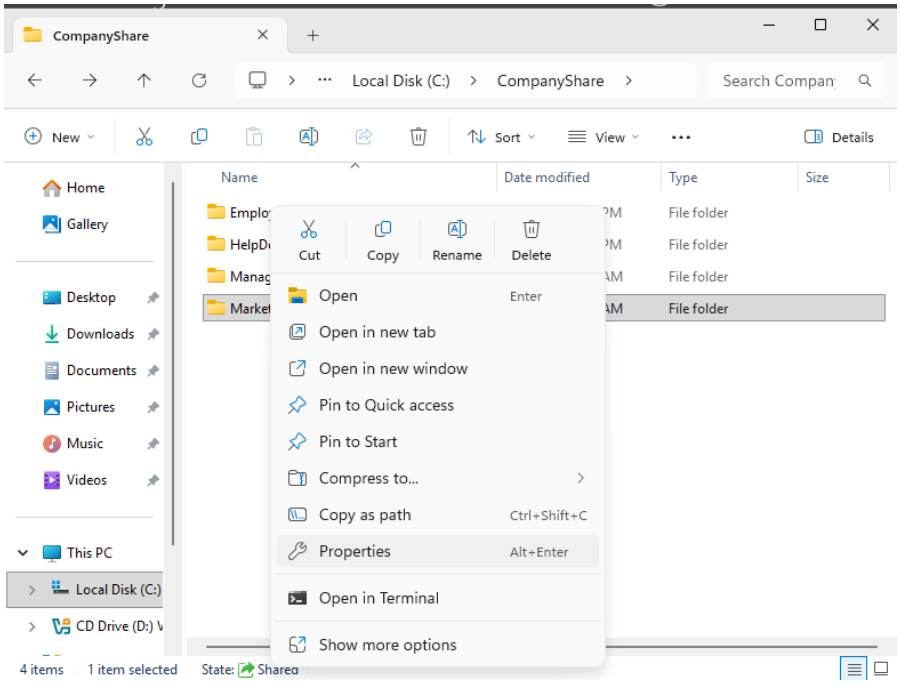

Figure 2: Checking the properties of the folder

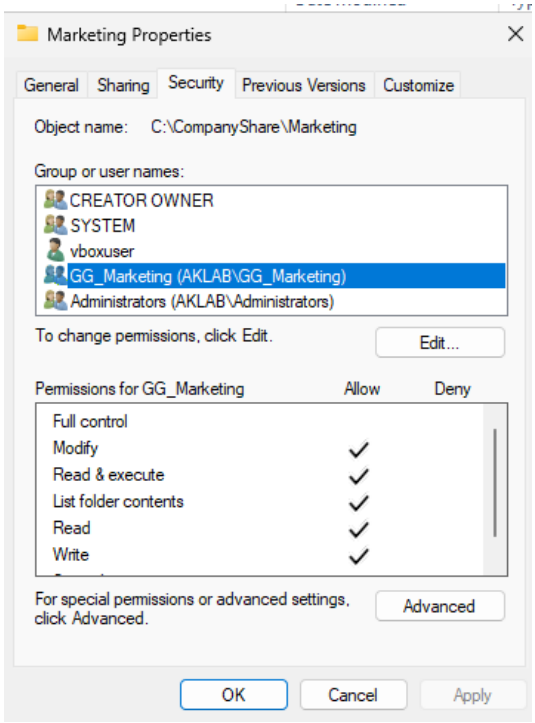

Figure 3: The settings allow GG_Marketing group

As per the Security settings, GG_Marketing group is allowed to access the Marketing folder, which means that the issue is not with the permissions of the folder.

Let's check if the group exists inside the Marketing Organization Unit in the Active Directory Users and Computers:

The marketing group exists in the Marketing OU:

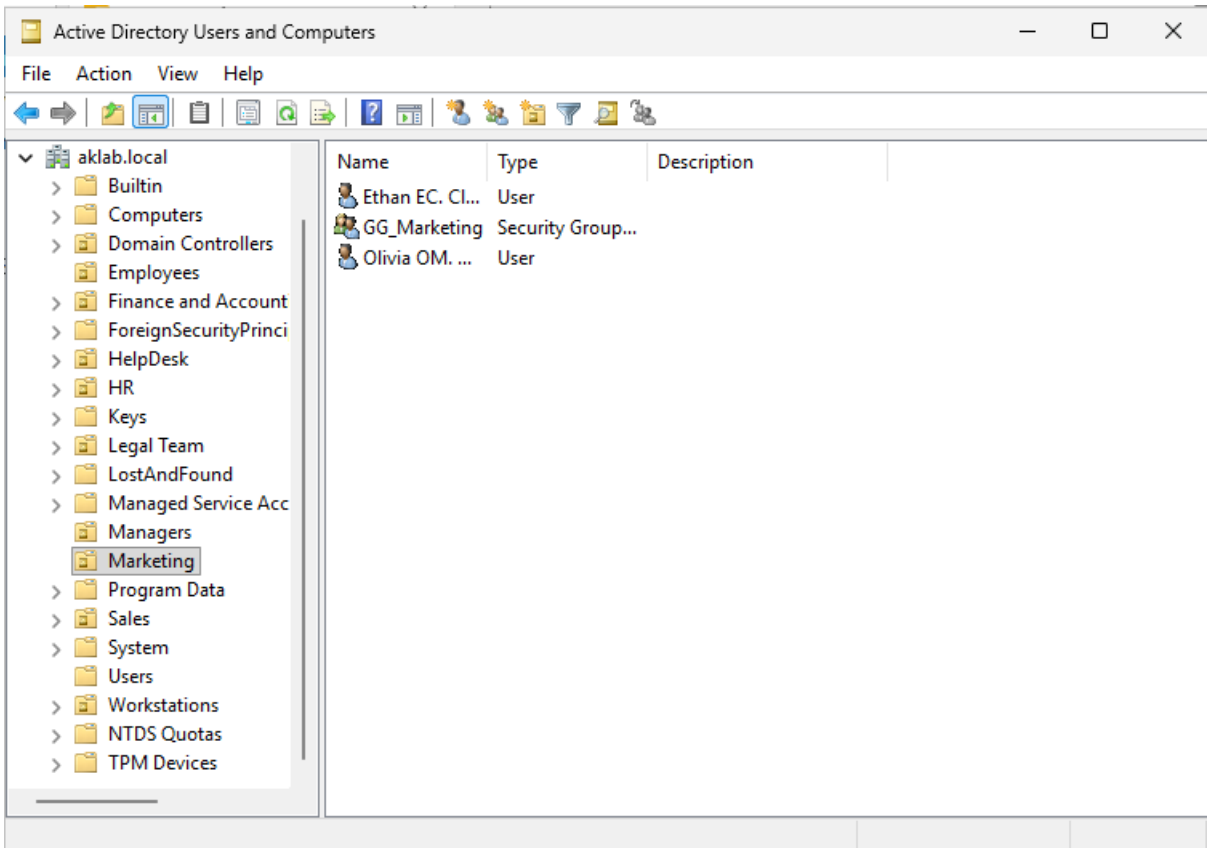

Figure 4: GG_Marketing security group exists in the Marketing Organization Unit

Let's check the group's permissions of the GG_Marketing:

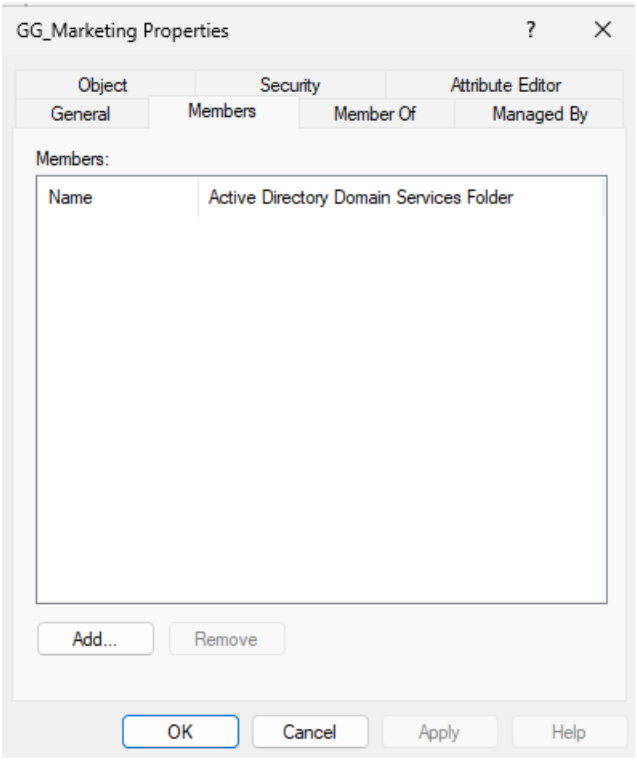

Figure 5: No members belong to the GG_Marketing group

This is the issue that the marketing team is not able to access the folder. Let's add the members in the group:

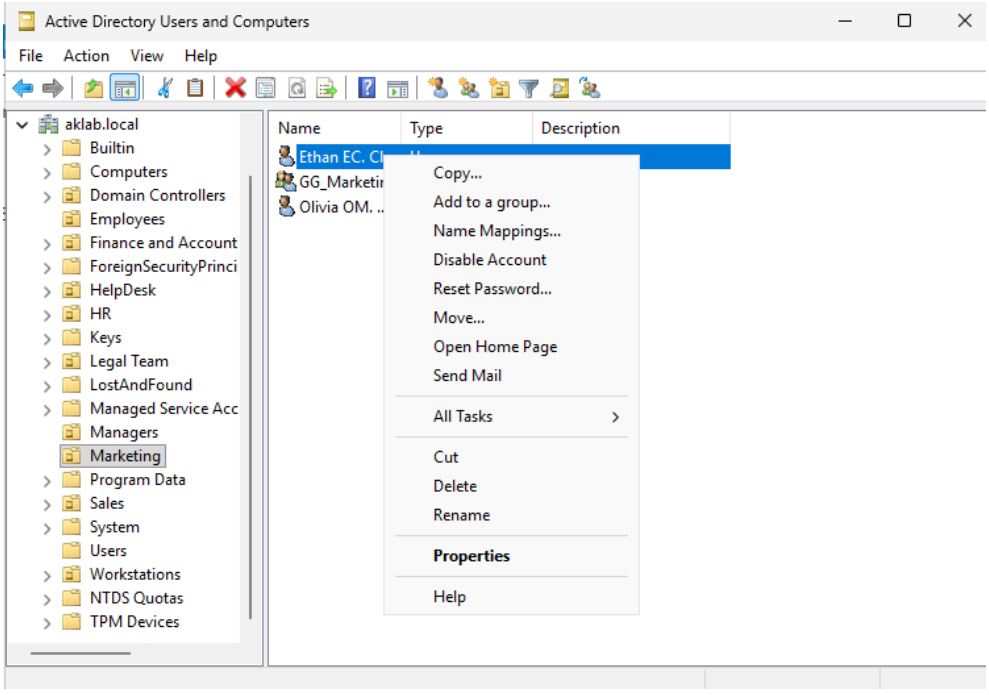

Figure 6: Adding Ethan Clark to the group

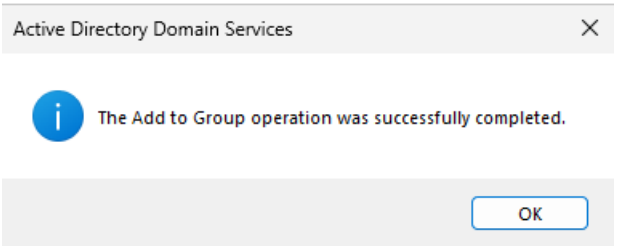

Figure 7: The user is added to the group

Ethan Clark is successfully added to the GG_Marketing group, let's perform the same operation with Olivia Martin:

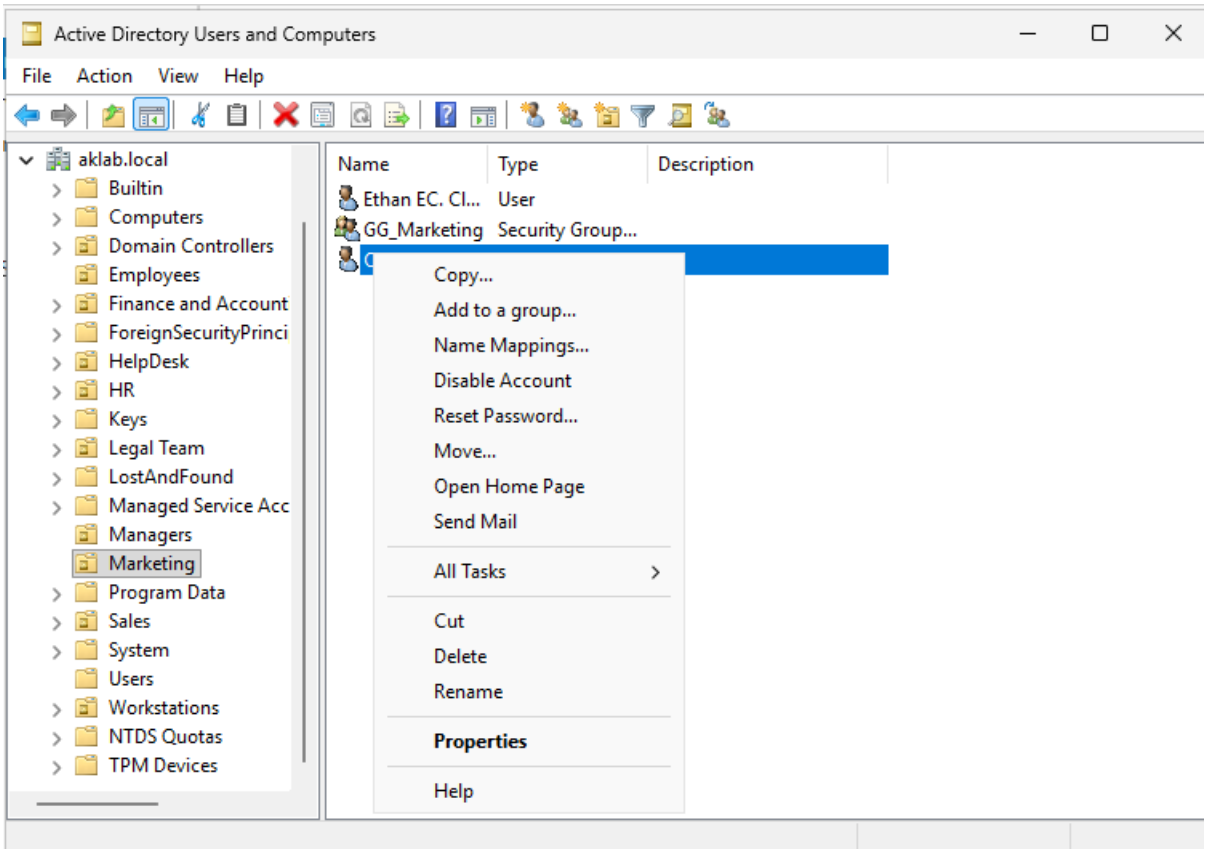

Figure 8: Adding Olivia Martin to GG_Marketing

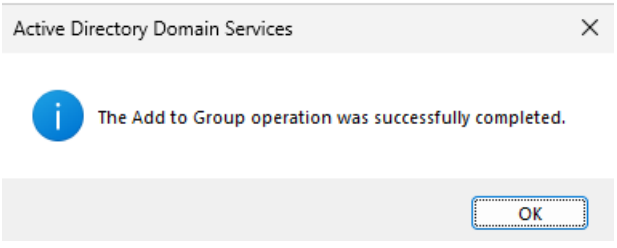

Figure 9: The user is added to the group

Olivia Martin is successfully added to the GG_Marketing group.

Let's check the members of the GG_Marketing security group now:

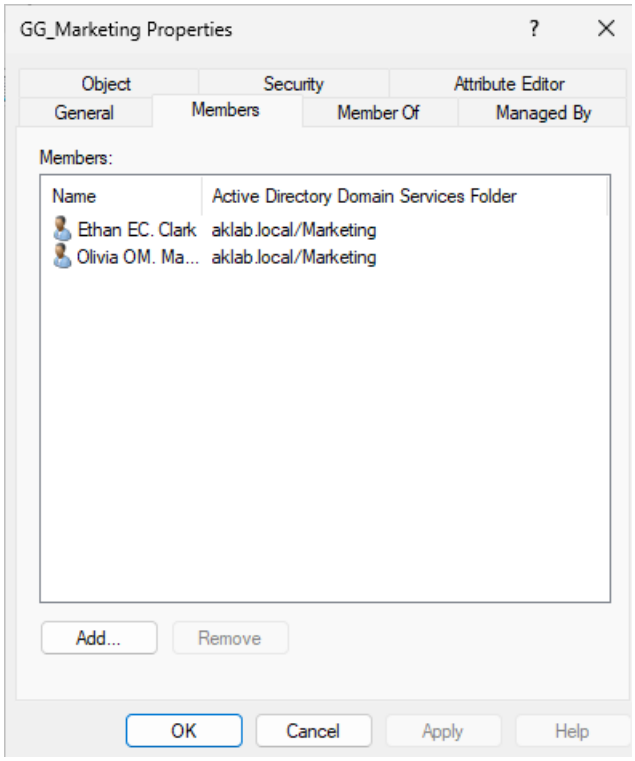

Figure 10: Both the users are added to the group

Both the users are reflected as the members of the GG_Marketing group.

6. Validation

Let's verify by remotely login to both the users's desktops:

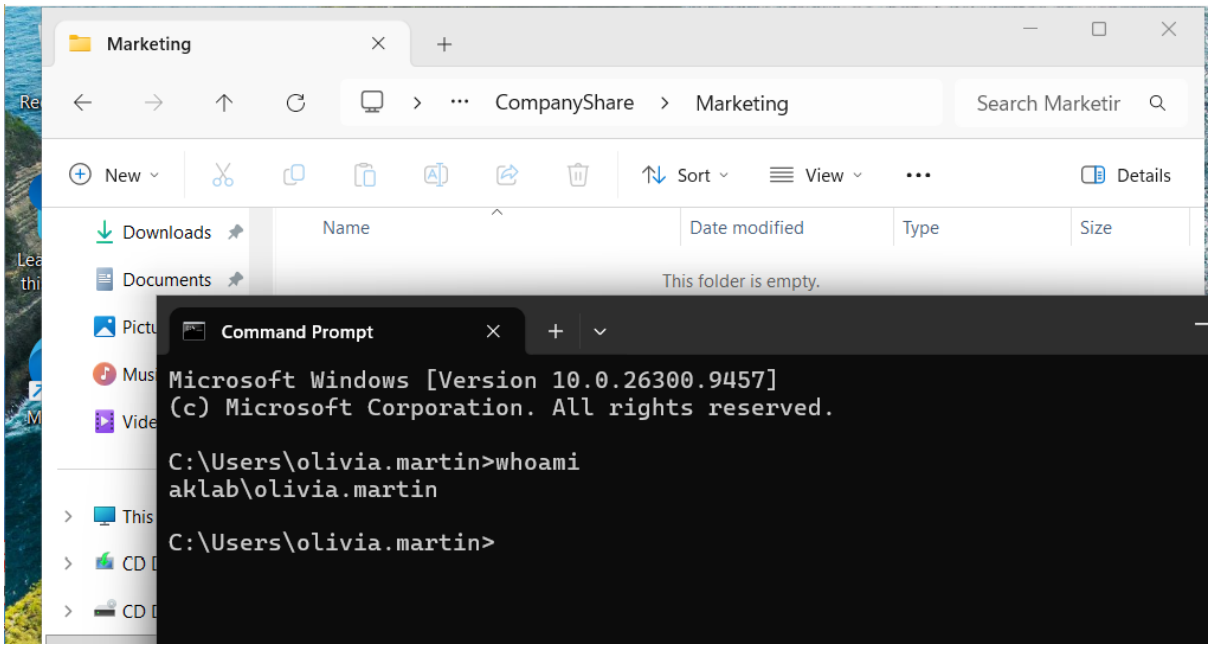

Figure 11: Olivia Martin can access the folder now

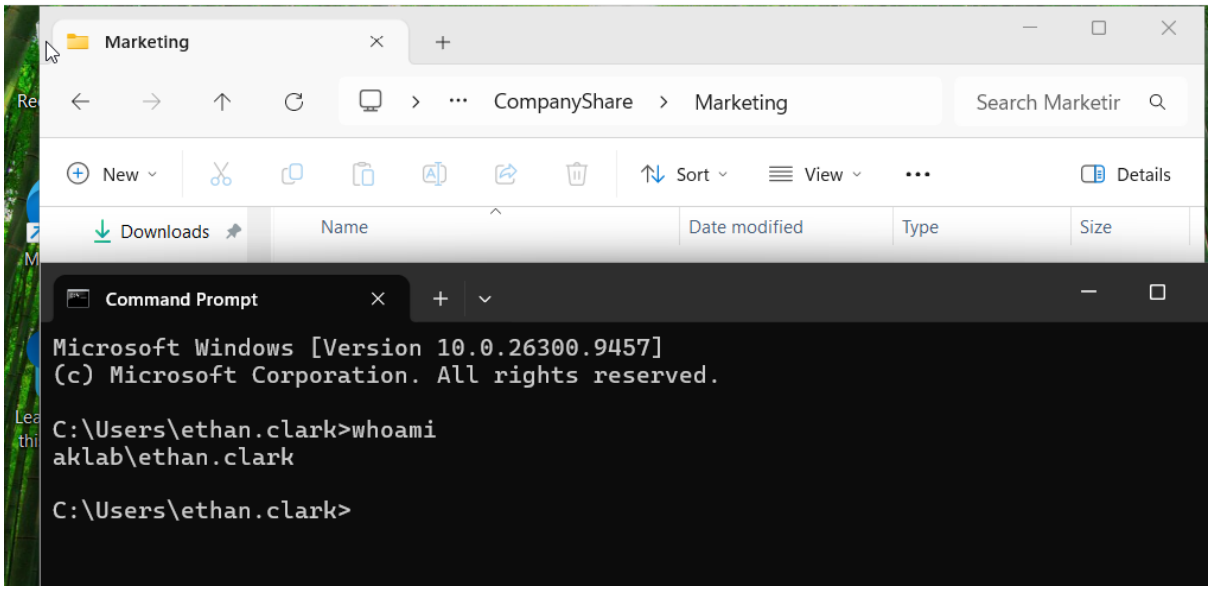

Figure 12: Ethan Clark can access the folder now

Both users gained access to the Marketing folder.

Ticket Resolved!
